

# ABED JABER

Fullstack Developer & QA Tester

+972 52-772-3440

Abdo.jaber.123@gmail.com

Taybe ,Central District , Israel

Practical Software Engineer with a diploma from Ruppin Academic College, specializing in quality assurance and full-stack development. Skilled in manual and automated testing, microservices architecture, and database management (SQL, NoSQL). Proficient in React, Node.js, TypeScript, Python, and React Native app testing, with a focus on delivering reliable, scalable software and enhancing user experiences.

## EDUCATION

### Software Practical Engineering

Ruppin Academic College - Kfar Monash  
2022 - 2024

### HighSchool Diploma

Atid High School - Taybe  
- 2019

## CERTIFICATIONS

- **Diploma In Practical Software Engineering** , Ruppin Academic College - oct 2024
- **CCNAv7: Introduction to Networks**  
Cisco - jul 2024

## LANGUAGES

- **Arabic:** Native proficiency
- **Hebrew:** Bilingual proficiency
- **English :** Fluent understanding

## LINKS & WEBSITES

- **LinkedIn :** [Abed El Lateef Jaber](#)
- **GitHub :** [abedz7](#)

## PROJECTS

### SpotCker (Spot Seeker)

SpotCker is a MERN stack parking assistance app with a secure backend for managing user data and parking availability. Built with React Native, it features a user-friendly interface for finding parking and vehicle registration, enhanced by Python-based license plate recognition.

### QuickShift

QuickShift is a MERN stack mobile app that connects job seekers with employers, providing a seamless platform for job searching and posting. It prioritizes user experience, offering easy navigation and intuitive features for both users.

## SKILLS

- **Data:** SQL, NoSQL Databases, Data Structures, Data Science, Object-Oriented Programming (OOP)
- **Coding:** Python, C#, JavaScript, TypeScript, React, Java
- **Full-Stack Development:** Microservices, Node.js, React, AWS, Firebase, MongoDB, Express.js ,RESTful APIs, CI/CD Pipelines
- **Tools & Technologies:** Git, Kubernetes, Postman, Visual Studio, VS Code , Render
- **Web Development:** HTML, CSS, SASS, Bootstrap, Responsive Design
- **Mobile Development:** React Native, Android Development
- **Problem-Solving:** Debugging, Algorithm Design, Performance Optimization
- **Testing (QA):** Manual Testing, Automated Testing, Test Case Design, Bug Tracking , Playwright

## SOFTWARE EXPERTISE

Experienced in full-stack development and quality assurance, specializing in building robust servers, managing data with microservices, and creating seamless web applications using HTML, CSS, JavaScript, React, and Node.js. Proficient in MongoDB, Firebase, and testing methodologies. Skilled in C# for OOP, Java for Android, and Python for versatile tasks, I deliver scalable, maintainable software solutions with thorough testing to ensure reliability. Known for writing clean, organized code and implementing effective QA practices.

## EXPERIENCE

### Python Tutor - Algorithmics

Taybe, Central District Aug 2024 - Current

- Python tutor for high school students, guiding them through foundational programming concepts, hands-on coding exercises, and real-world applications to build confidence and skill in Python.

### Store Manager - Mavericks Extreme

Tira, Central District Aug 2019 - Current

- Oversaw daily operations, maintained a safe, clean store, managed hiring and training, and optimized UX/UI for the store website based on user behavior data for enhanced usability.
